

SMART WAREHOUSING in the Amazonian Environment

Smart warehousing is a balancing act in today's Amazonian environment.
*Customer expectations are high. Labor and Transportation costs continue to rise.
Work flows and processes need greater efficiency. Margins and cash flow are squeezed.*

TAKE CONTROL OF YOUR SUPPLY CHAIN

*Improve your customer service. Reduce your labor and transportation costs. Maximize your space.
Streamline your processes. Leverage technology. Increase your margins and cash flow.*

About Lisa Anderson and the LMA Consulting Group

Lisa Anderson is the founder and president of LMA Consulting Group located in Claremont, California. The firm works with manufacturers and distributors to innovate, elevate and transform their end-to-end supply chain to align with customer demand. Lisa and her team are experienced in working with a wide range of organizations. Focused on having the right inventory, in the right place, at the right time, projects have included WMS, TMS and ERP evaluations, site & location analysis, service level performance and capacity assessment. Priorities are customer service, margins and cash flow.

Known for collaborating with companies to create bold customer promises while simultaneously focusing on profits, Lisa works to align sales, operations and finance to maximize business value, enhance end-to-end supply chain performance and enable rapid growth.
